Viewer:	018
Session date:	10 JAN 89
Start time:	1308
End time:	1430
Mode of operation:	CRV SOLO
Monitor:	None
PI:	None*
AV:	None

2. (S/NF/SK) Cuing: "Access and describe the target of interest at encrypted coordinates 803538/666590."

3. (S/NF/SK) Results: The target is a metallic "manmade" (object or structure) which has a strong rotary motion and exists/works in/under water.

\* Although I went into the session with no known PI, some ridiculous song kept going through my mind throughout the session. I would finally clear my mind of it, work a few minutes, and find it back, drowning every other thing out. A MOST frustrating session, producing virtually no results.
